<b>Low V.O.C</b>							
<b>LEED Credits</b>							

\*\*For Nail down installations of any Strand Woven floor use only cleats with an 18 or 20 gauge. Nailing Strand Woven may result in dimpling to the surface of the wood. Glue down is recommended.

\*All Janka and Formaldehyde ratings reflect third party laboratory test results on the Natural color of each product line. Carbonized materials can be up to 10-20% softer.

^ Only the top wear layer of the Click lock flooring has been tested for Janka hardness.
